PAINTING LOCALES
AND
SUBJECT MATTER

TREES: This show provides the opportunity to enter existing paintings that prominently feature trees from throughout middle Tennessee. We will ask that you enter the tree(s) locations in the “Title Block” submission information.

LOCKELAND SPRINGS PARK (1810 Woodland Street) & VICINITY: This is a small, natural area surrounded by homes that was acquired as a Metro Park years ago to protect its historic springs. It is not maintained as a formal park.

It was a rustic, woodlands that lost many canopy trees in the tornados of March 2020. Resulting sunlight allowed thick shrubs and meadow plants to cover the ground plane. The park is formed by a horseshoe-shaped, limestone basin surrounded by homes perched along the cliff-like edges.

Given the show’s scheduling constraints for capturing seasonal variations in this park, we are opening entries to include native birds, animals, plants, and wildflowers depicted in naturalized woodlands and pastures in Middle TN.

Because there is no lake in LSP – only wet-season creeks, floating and wading birds may not be included.

NOTE – There is no parking area designated for the park. Neighbors are fine with visitors parking along the curbs but avoid blocking driveways.

The **park entrance** is on the right-hand side at the dead end of Woodland St. Lockeland Elementary School, a landmark for locating this park. When facing the school, Woodland is the street on your left. **1810 Woodland St.** is the best address.

The land acquired that expands the park from the fundraising efforts wraps over to **1900 Forrest Ave** (parallel to Woodland St.). This address provides access to great views within the park. The original homeplace is at this address. It has too much structural damage for the new owners to salvage and will be replaced. Park on Forrest to paint this home. We are cleared to walk behind the house to paint deeper views of the woods and tiny creek. This area was spared the damage from the tornados. (Map below of Lockeland area)

FOCUS AREAS:

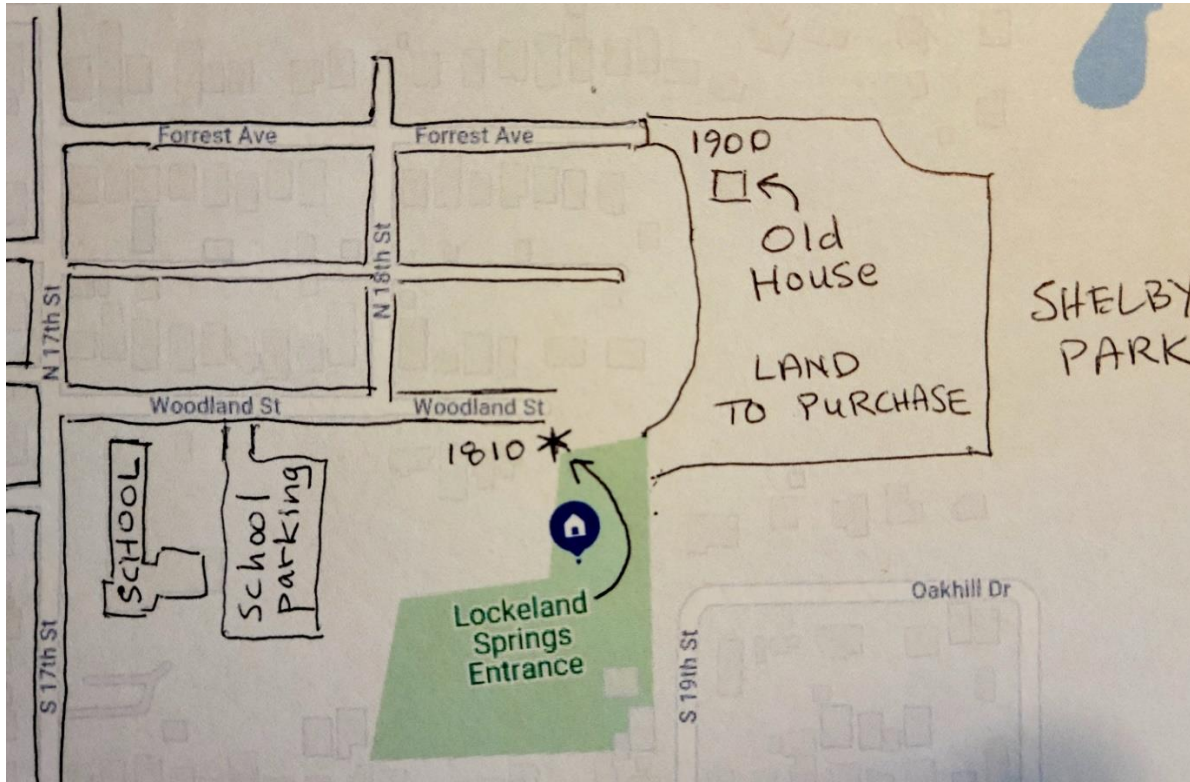

- Lockland Springs Park- any subject or view within or around the park
- The old home on Forrest Ave and the wooded area behind it that connects over to the park itself on Woodland St.
- Expanded Lockland Springs neighborhood, bridges, churches, houses, streets all surrounding Lockland Springs
- Middle Tennessee trees, forests, meadows, and all wildlife that live around or in the trees and open spaces
- Nashville tree canopy could include urban settings with trees
- Local parks and all landscapes with groups of trees or specimen
- NOTE: we are saving subject matter from **Shelby Park** for Shelby Park & Bottoms show, Earth Day 2023 but the trees are fine to paint now
